

# Display MongoDB Data on UI using Node.js and EJS

Node JS Tutorial in Hindi #46 Display MongoDB Data on UI using Node.js ...

## Make GET request call

```
app.get("/", async (req, resp) => {  
  await client.connect();  
  const db = client.db(dbName);  
  const collection = db.collection("students");  
  
  const result = await collection.find().toArray();  
  
  console.log(result);  
  
  resp.send("Data will be here");  
});
```

```
});
```

## Make EJS template file

Create a file named `students.ejs` inside the `views` folder.

```
<table>
  <tr>
    <td>Name</td>
    <td>Age</td>
    <td>Email</td>
  </tr>

  <% students.forEach(student => { %>
    <tr>
      <td><%= student.name %></td>
      <td><%= student.age %></td>
      <td><%= student.email %></td>
    </tr>
  <% }) %>
</table>
```

## Make GET request call

```
app.get("/", async (req, resp) => {
  await client.connect();
  const db = client.db(dbName);
  const collection = db.collection("students");

  const result = await collection.find().toArray();

  console.log(result);

  resp.send("Data will be here");
});
```

```
});
```

## Set view engine

```
app.set("view engine", "ejs");
```

## Render students.ejs file

```
resp.render("students", { students: result });
```
