Node JS Tutorial in Hindi #61 Set and Get Cookies in Node js

## Set and Get Cookies in Node js

### Points of video

**What are Cookies?**

**Make html form.**

**Set Cookies.**

**Check Cookies are stored or not.**

**Display Cookies data on UI**

**Interview Questions**

## Notes, Code and playlist.

# what is cookies ?

**Cookies are small pieces of data that a server sends to the client (browser),**

**Which the browser stores and sends back to the server with each subsequent request.**

## Code of index.js file

```
import express from 'express'

const app = express();

app.set("view engine", 'ejs')
app.use(express.urlencoded({extended:true}))
app.get("/login", (req, resp)=>{
  resp.render('login')
})

app.post("/profile", (req, resp)=>{
  resp.setHeader('Set-Cookie', "login=true")
  resp.setHeader('Set-Cookie', "name="+req.body.name)

  resp.render('profile')
})

app.get("/", (req, resp)=>{
  let cookiesData= req.get('cookie');

  cookiesData= cookiesData.split(";")
```

```
cookiesData= cookiesData[1].split("=");

console.log(cookiesData[1]);

resp.render('home',{name:cookiesData[1]})
})

app.listen(3200)
```
