Interview Questions

Notes, Code and playlist.

# What is Session?

Store Data on server

More secure

Key stored in cookies

## index.js file code

```
import express from 'express'
import session from 'express-session';

const app = express();

app.set("view engine", 'ejs')

app.use(session({
    secret:'apple',
})) 

app.use(express.urlencoded({ extended: true }))

app.get("/login", (req, resp) => {
    resp.render('login')
})

app.post("/profile", (req, reps)=>{
    req.session.data= req.body;
    console.log(req.session.data);

    reps.render('profile')
})

app.get("/", (req, resp)=>{
```

```
const data = req.session.data;  
console.log("data", data);  
  
resp.render("home", {data})  
})  
  
app.listen(3200)
```
