

# Database - Node JS MongoDB

Node JS Tutorial in Hindi #42 What is Mongodb and Types of database

## What is Database?

A database is a structured collection of data

That is stored and organized in a way that makes it easy to retrieve, manage, and update.

## Types of Database

Relational Databases (RDBMS)

NoSQL Databases (MongoDB)

NewSQL Databases

Time Series Databases

Object-Oriented Databases

Graph Databases

Hierarchical Databases

## What is MongoDB?

MongoDB is a NoSQL database.

It stores data in a flexible (no table format)

JSON-like format called BSON (Binary JSON).

## SQL vs MongoDB

### SQL Terms and their MongoDB Equivalents:

**SQL: database → MongoDB: database**

**SQL: tables → MongoDB: collections**

**SQL: rows → MongoDB: documents (BSON)**

**SQL: columns → MongoDB: fields**
